Regarding the Acceptance of the Dolphin-A Delegation of Citizens From Dakota Visit the President.

General Grant Had an Alarming Attack of Hemorrhage-Said to Be Sinking.

INTERESTING NATIONAL NEWS.

huysen's Condition-A Telegram From Panama.

WASHINGTON, April 7 .- Secretary Whitney to-day issued the following: "For the purpose of informing myself as far as possible of the facts necessary to the determination of the matter involved-the acceptance of the Dolphin-I hereby designate Captain George E. Belknap and Commander R. D. Evans to act with Mr. Henry Winter, of New York, as a board of examination to investigate and report to me whether she has been constructed within the requirements of the contract. In view of the necessary limitations upon any investigation of a completed ship, to report specifically what matters they are able to determine and how they determine them, and what matters are impossible of determination, except as the work is

A telegram was received here to-day from the home of ex-Secretary Frelinghuysen, saying that his condition was the same as yesterday. The dispatch further said that ne might linger in his present condition for some days. Mrs. Frelinghuvsen is reported

as improving. Senor Batres, the Minister from Guatemais, has not yet received any information from Guatemala confirming the report of the death of General Barrios. He has received dispatches from San Salvador, however, con-

firming the report. Commander Kane, of the Galena, has telegraphed Secretary Whitney under date of April 6, as follows: "Nothing new to report. The Panama Railroad Company are getting the road in order. Government troops are anxious about their prisoners. The railroad company and the Galena are feeding the troops. All are in need. There is great anxiety among foreigners at Panama."

A delegation of citizens of Dakota to-day called upon President Cleveland in reference to the Winnebago Reservation. They maintained the perfect legality of President Arthur's order, opening the reservation to settlement. It was also stated that many thousand settlers, many of them from the Eastern States, had gone into the reservation in absolute good faith and begun improvements upon their sections. Their ejectment would involve great hardship and disaster to many worthy persons. The President informed the delegation that the settlers' interests would be cared for, and no further proceedings taken by the Government until a most thorough investigation of the whole subject had been made.

ALARMING SYMPTOMS

Again Manifested in General Grant's Condition-He Has a Hemorrhage and Loses a Tencupful of Blood.

New York, April 7 .- After dressing General Grant's throat yesterday afternoon, Dr. Douglas remarked that it looked better than on Sunday. This remark evidently 1mpressed the General hopefully, for some minutes later he said to Dr. Shrady, "I have been wondering to day if there might be a possible chance for me to get about again. I suppose the chances are a hundred to one against me, but sometimes feel that I shall get better, and I think if have another choking spell, that will end me very quickly. If you doctors can tell how long a man can live under water when he is drowning, you can tell how long it will take me to choke when the fit comes on. If no checking fit comes, I think now that the chances favor my lingering for some time, I have got along so well in the past two days.' The doctors expressed full agreement with

General's views. Then the General left his chair and tramped about the room as though he felt himself squarely faced toward recovery,

About 3:45 o'clock this morning a messenger boy dashed harriedly down the steps of General Grant's house and rushed toward the telegraph office on Madison avenue, near Sixty-sixth street. The lad held in his hand two notee, one addressed to Dr. H. B. Sands and the other to Dr. George F. Shrady. A few minutes after another messenger boy rushed out of the Grant residence bearing notes for Senator Chaffee, General Badeau

and Rev. Dr. Newman. General Badeau was the first to arrive, being driven rapidly in a carriage to the door. He immediately rushed up the stairs, was admitted, and proceeded at once to Gen-eral Grant's room. A horse at a full gallop dragged the coupe of Dr. Shrady up to the door at 4:55 s. m. A few minutes later Dr. Sands arrived bearing a case of instruments, although it afterward was learned that surgical operations were unnecessary.

U. S. Grant, Jr., and Senator Chaffee reached the house about five minutes past 5 o'clock evidently in great perturbation. Dr. Shrady, in response to a question, said | of the hemorrhage remaining in the expecthat Dr. Douglas was quietly sitting by General Grant, when the latter suddenly had a | without pain.

slight hemorrhage from the throat. Dr. Douglas took such measures as were necessary, and sent for Drs. Sands and Shrady. General Grant said: "There is no since last bulletin from the accumulation of essary authority for a declaration of war.

use sending for the other doctors, you are enough." General Grant spit about two onnces of blood, and then wiped the traces from his face with his hand and appeared calm and collected. Senator Chaifee left the

house at 6:15. He said he had an injection of morphia at 6 a. m., and I think he will live through today. He lost a tea cup full of blood. He was so much collected that he directed those strending him to hold the vessel so that no lo d would reach the floor. Dr. Shrady at 7 o clock said that General Grant was asleep, an i that he was doing as well as could be excected under the circumstances. He also sta'ed that Dr. Douglas was taking a much

needed rest. The hemorrhage in General Grant's throa this morning was the accident that had been feared by those nearest to the patient. T.e. immediate result was not strangulation, as had been anticipated by those in attendance and by the General himself. Just how serious the result would be on the general condition of the patient could not be foretold early in the morning, but at 8:30 a m. there was no perceptible increase of debility or weakness caused by loss of blood. It is, of course, possible that a crisis may occur today, but the probability of such a turn dur-ing the daylight is scarcely entertained among those best posted as to the General's condition. Senator Chaifse's opinion this morning is that General Grant may not die during the day, and such is the opinion of well-posted persons, who have no incentive or bent to be alarmists, though all hold tnemselves in readiness for any critical developments. The hemorrhage this morning in General Grant's throat was arterial blood The General seems not at all alarmed, and the family was not greatly frightened. The hemorrhage was due somewhat to the in-crease of the disease, and was induced by a momentary fit of coughing. The probabilities are that he will survive to-day.

Later Particulars of the General's Condi-

tion. New York, April 7,-Drs. Barker, Douglas Shrady and Sands were in consultation about General Grant this evening. Dr. Barker, later, said the General was considerably weaker, and that he took food under protest He was liable at any moment to have a recurrence of the hemorrhage.

Mrs. F. D. Grant during the afternoon sent a message to Mrs. Potter Palmer, her sister, who is in Georgia, stating that the General was much worse. General Grant's wife did not go with the family to dine to day. She had her meals served in the library where the family watches and waits throughout the day. Dr. Shrady arrived at General Grant's house at 6:15 p. m. He had with him maby instruments.

U. S. Grant, son of Orville Grant, left the house at 5:30 p m. He said that the rumor that the General had been delirious during the afternoon was untrue. Dr. Newman, at the request of General Grant, was sent for about 3 p. m. Dr. Newman had spoken of the friendly feeling of the people at large. and the great number of friends the General had. "And I have a great many on the other side, too," said the General. "Yes, that is true; and they are waiting for you, General, they are waiting for you."
"Ab, yes, and I wish they would come,"

replied General Grant. Dr. Newman said that never in his life did he see such an expression of peaceful satisfaction as that on the General's face, as he uttered these words.

At 7 o'clock Dr. Douglas said the end was At 9 p. m. Dr. Shrady said he was prepared for all emergencies.

Ex Commissioner of Internal Revenue Green B. Raum and Senator Palmer, of Michigan, called this evening. Ex Senator Chartee and U. S. Grant, Jr., entered the house about 8 p. m.

Tuesday's Bulletins.

NEW YORK, April 7-5:45 a. m.-Ganeral Grant slept well until 4 a. m., when he awoke and took his nourishment, Immediately after, in a paroxysm of coughing, he had a slight hemorrhage, which ceased spontaneously in a few moments. Drs. Sands and Shrady were sent for, and found the General as quiet as usual, having had no renewal of the hemorrhage. (Signed) DOUGLAS AND SHRADY.

6.30 a. m.-Dr. Douglas notified everybody, in order to relieve the family's anxiety, that General Grant is quite easy now, and the trouble will probably not recur. Dr. Shrady just said General Grant is quite easy, and no renewal of the hemorrhage is auticipated.

6:35 a. m.-Senator Chaffee thinks danger is over for the next hour or two. The General lost nearly a teacupful of blood. He was perfectly composed and gave directions as to how the vessel should be held so that no blood should be spilled. The physicians have not yet been able to exactly locate the seat of the hemorrhage. 7 p. m.-Dr. Shrady says General Grant is

asleep, and doing as will as can be expected under the circumstances. 9:30 a. m.-General Grant has just awakened. His pulse is the same. There has been no return of the hemorhage.

11 a. m.-Grant's condition remains unchanged. He has taken his food without pain. His pulse is still steady and firm. There has been no recurrence of the hemorrhage. His mind is clear. His replies to questions give evidence of the same uncomhim during his entire sickness

SHRADY, M. D. Noon .- Gederal Grant is apparehely improving, although he is very weak.

12:30 p. m.-The hemorrhage in General Grant's throat this morning ceasee naturally. without any ftiptic application. The hemorrhage was arterial, not venourous blood. The General seems not all frightened. The hemorrhage was due to some increase of the disease induced by a momentary fit of coughing. The probabilities are that the General will survive the day.

NEW YORK, April 7 .- 1 p. m.-There is apparently no change in the General's condi New York, April 7-2:30 p. m.-Grant is steadily growing weaker. The doctors have

not expressed any decided opinion about s return of the hemorrhage, but it is apparent that they do not feel hopeful. 6 p. m.-General Grant has been sleeping quietly since the last record. He has just awakened and taken food and stimulant. His pulse is 76, volume fair, temperature

101. There has been no reoccurence of the J. H. DOUGLAS, M. D. G. F. SHRADY, M. D. hemorrhage. 10:30 p. m.-General Grant continues in a comfortable condition. He has slept well and his pulse is 84. There is no appearance torations. He has just taken nonishment

J. H. DOUGLAS, M. D. GEO. F. SHRADY, M. D.

mucous in the throat, and his pulse is 64 and improved in volume > respiration 14. He has taken his nourishment regularly.

J. H. Douglas, M. D. George F. Shrady, M. D.

THE ELECTIONS. Ishnots.

Chicago, April 7 .- An election for Mayor, City Treasurer, City Clerk, Attorney, township officers, and aldermen, was held here to-day. An unusually heavy vote for a city election was polled. At this hour-1:13 -out of 194 voting districts heard from give Harrison, Democrat, for Mayor, 24,455; Smith, Republican, 24,743, Smith's majority, 288. Both parties claim the elec-

Chicago, April 8, 1 a. m. -One hundred and seventy-two Precinc's heard from at this hour give Harrison 1,065 majority. CHICAGO, April 8 -- The Times claims Harrison's election by 3,500, with twenty precincis to hear from. Probably the entire Democratic city ticket is elected.

CINCINNATI, April 7 .- Complete returns of yesterday's election gives Smith, Republican, a majority of 3,893 for Mayor. J. W. Fitzgerald, elected Police Judge by 1,285 majority, and Vincent Schwab, elected Magiatrate by 1,492 majority, were the only successful Democratic candidates.

Toledo, O., April 7 .- Yesterday's municipal election resulted in the choice of the Republican city ticket, except Mayor and Police Commissioner, by majorities ranging from 17 to 700. Forbes, Damocrat, for Mayor, has an estimated majority of 2,500 over Walbridge, Republican. The Republicans will have a majority on the School Board, and the City Conneil on joint ballot, conceding Walsh, Independent, to the Demo-

Michigan,

DETROIT, April 7 .- More complete returns from the election in this State yesterday for Justice and Regents of the University indicate a decided majority for Morse, Democratic candidate for Justice, and the election of the entire Democratic ticket. The Post (Republican) this morning acknowledges the defeat of the Republican ticket, and the Free Press (Democrat) claims a majority for the head of the Democratic ticket of not less than 20,000. In this city the Democratic majority was 5,498, and the Democrats carry the munscipal election as well with pluralities ranging from 1,100 to 3,721. Judge Chapman, Democrat, nominated for Judge of the Supreme Court, had no opposi-

Missouri.

Sr. Louis, April 7.- The returns of the city election held here to day are not all in yet, but at midnight enough is known to show that the Democrats have elected almost their entire ticket. Two hundred and nineteen of the 244 precincts in the city give David R. Francis, Democrat, for Mayor, 1,009 majority over William L. Ewing, present incumbent and Republican candidate. The same precincts give General A. J. Smith, Republican, for Auditor, 413 majority, and Henry Flad, Republican, for President of the Board of Public Improvements, 512 majority. It is possible that one or two other Republican candidates are elected, but it scarcely seems probable at this writing. The majority for Francis will be from 1.200 to 1 500, and the vote for Filley, the leader of the disturbing faction in the Republican party, promises to be about the same, thus showing that had there been unity in the ranks the Republicans would have undoubtedly elected their ticket.

KANSAS CITY, Mo., April 7 .- The returns to 1 o'clock a. m. give John W. Moore, Damocrat, for Mayor a small majority over John Duncan, Republican.

The Entombed Miners.

SHENANDOAH, Pa., April 7.-Entrances have been made in the Raven Run colliery through both slopes, east and west of the fall, to the bottom lift of the workings, and it has been determined thereby that the ten men are imprisoned directly under the mass of rock that has fallen between the gangway and the surface. 1,100 feet above. The workings are in the Buck Mountain seam and extend about 1,100 feet from the surface. Purcell, Herrity, Mervine, Smith, Kidney, Maurie and Cavanaugh were in the fourth and bottom lift securing the gangway and directly under the fall. The other three, the two Andersons, father and son, and Frank McLaughlin were in the second lift, 300 feet above and also in the immediate line of the fall. All of the men are dead beyond question, and it now only remains a question of how long it will be until their bodies

can be recovered. Store Orders Illegal.

PITTSBURG, Pa., April 7.-Yesterday Judge I wing decided that a store order, given by any company to an employee, was illegal, The practice of giving store orders has for years been carried on extensively by the coal operators of Western Pennsylvania, and now that the question has been settled by the courts, the miners who have been compelled to accept these orders propose entering suit against their employers for the re-

covery of their wages in lawful money. D. R. Jones, their attorney, has already collected claims aggregating \$75,000, and he expects in a short time to have this amount increased to several hundred thousand dol-

Destructive Rains.

MEMPHIS, Tenn., April 7 .- Heavy and destructive rains fell last night and to-day in Mississippi, doing considerable damage to railroad property. The bridge which spans Ballon's Creek, on the line of the Vicksburg and Meridian Railroad, was washed away. Two breaks are reported on the Natchez, Jackson and Columbos Railroad between Jackson and Harriston, and about seventy feet of pile trestle was washed out at Bayou Pierre, twenty miles south of Vicksburg, this afternoon, causing a delay of travel on the line of the Louisville, New Orleans and Texas Railroad.

The War in Central America.

CITY OF MEXICO. April 7 .- The President of Salvador is not yet certain of victory in spite of the death of Barrios, and wants the active aid of Mexico in order to terminate the war quickly with as little loss of life as possible. It is the common belief here that President Diaz will accede to Salvador's request, and that Congress will grant the nec-

FROM ACROSS THE SEA.

The War Preparations of England and Russia Still Being Pushed Forward by Both Powers.

Ireland Greatly Agitated by the Visit of the Prince and Princess of Wales.

GENERAL FOREIGN NEWS.

Will Resume Negotiations With Persia-Eussian Preparations for War.

LONDON, April 7 .- It is reported that, in view of the complications in Asia, the Government intends to dispatch a Military Commission to Teheran to renew the negotiations with Persia, which were begun by Desraeli, but dropped by the present Goy-

Professor Vambery's article stated that in a few years Russia will penetrate to within close proximity of Herat, partly by way of the Caspian Sea and partly from the left side of the Oxus by railway through Weir. In the meantime she is raising among Turcomans a military force which will equal the renowned native regiments of India. She has already 5,000 Turcoman cavalry armed with European rifles, and well drilled under Colonel Lopatinsky, who are in every way ready for an invasion.

The Paris correspondent of the London Times claims to have received from various sources intimations that the prospect of a war has roused the dormant hopes of the many oppressed heterogenous people who comprise the Russian Empire, and who have been subjected to religious persecutions. They would gladly welcome any alhance which would enable them to reject the tyranous yoke of Russian rule. Not only in the Caucasus, in Poland and in the Baltic Provinces is this spirit manifested, but even the Cossacks resent the forced assimilation.

Brisson's General Policy.

Paris, April 7 .- M. Henri Brisson, the new President of the Council of Ministers, read before the Chamber of Deputies this afternoon a formal statement of the policy agreed upon by the new ministry. In regard to China the statement declared that France would demand from China complete respect for all the French rights resulting from the treaties made by France with Annam and China, concerning Tonquin, and which China had recognized as valid by the Fournier convention of 1884. France would be happy if amicable negotiations sufficed to attain this respect for French rights, but the end would be attained by arms if necessary. The Government, however, was resolved to not modify the character of the French expedition in Tonquin without the approval of the Chambers. Concerning European affairs the declaration stated that the French Government would, by an attentive and circumspect policy, seek to guarantee France's position as one of the very first powers in all questions occupying European

M. Brisson concluded the statement by asking the Chamber to vote the government the remainder, amounting to \$30,000,000, of the credit asked for on account of the operations in Tonquin. The speech of Brisson

was much applauded by the deputies. M. Perrin moved that the French evacuate Tonquin.

M. Brisson denounced Perrin's motion as an expression of feeling which was repugnant to the feelings of the Chamber as well as to the feelings of the country. The new government, he said, was anxious for peace, but it would do nothing contrary to the dignity or honor of France, such as the proposed evacuation of Tonquin at the present time would be. This declaration was greeted

with cheers. The Chamber then granted the additional credit of \$30,000,000 by a vote of 373 to 92.

The Nationalists on the Prince's Visit. Dublin, April 7 .- Mr. Healy, who presided at a meeting of Nationalists, said that the Prince of Wales was coming ostensibly to see the condition of the country. It would be better if he visited the huts of evicted families instead of picnicking at thelandlords houses. He (Mr. Healy) regretted that a gentleman destined to be the King of Ireland (great uproar and shouts of "never") should be so ignorant of the public feeling in Ireland as to visit Dublin Castle and thereby cause Irishmen to attribute to him a desire to prop up Earl Spencer's scepter and whitewash Dublin Castle and to connect him (the Prince) with the murder of Joyce and Havnes. Mr. ! Healy concluded by assuring the Prince that, while wishing him a

England Arming Ocean Steamers.

litical effect whatever.

pleasant voyage, his visit would have no po-

LONDON, April 7 .- The government is continning its preparations for arming fast ceean steamers. Work on the Anchor line steamer "America," and the Cunard steamer Oregon" will be begun to-morrow. These steamers will receive an armament of ten guns each, and each will have transportation facilities for 1,500 men. Every movement of Russian vessels in all parts of the world is being closely watched, and if war were declared to-morrow a vast tonnage of Russian cargoes now afloat would be liable

to capture. Programme of the New French Ministry. Paris, April 7,-Prime Minister Brisson has enunciated the programme of the Cabinet. It contemplates the revision of the constitution of 1881, the abolition of the Senate, liberty of the press, secularization of | at Chicago, yesterday Mike McDonald, the religious property, separation of church and state, reform of the judiciary, compulsory education, taxation for revenue, and a reduction of the taxes upon articles of food and drink.

May Be So.

BERLIN, April 7 .- Mr. Gladstone stated in the House of Commons last night that he knew of no reason why the present difficulties between England and Russia could not be settled by ordinary diplomatic methods.

The New Premier on Chinese Matters. Paris, April 7 .- In the Chamber of Deputies this afternoon, M. Henri Brisson, the new Premier, said that France would insist upon China recognizing a French protector-

ate over Tonquin and Annam, according to the provisions of the treaty of Tien Tsin, peacefully if possible, otherwise the war would be renewed with increased vigor. In conclusion he demanded a vote of credit for 150,000,000 francs to enable the Government

to carry out this policy in relation to [China.

A Storm of Unprecedented Fury. QUEENSTOWN, April 7 .- The White Star line steamship "Germanic," which left this port on Friday afternoon, for New York, with 850 passengers on board, has returned here, having encountered a terrific storm and tidal wave. Saturday night, when the vessel was about 500 miles west of Fasnet, a tremendous storm began to rage. This continued with unabated fury for the space of ten hours. On Sunday morning the waters were in the wildest commotion. The vessel was repeatedly struck by tremendous seas. The pilot house was destroyed. All the boats were swept away, and the skylights smashed. Then a tidal wave of enormous force and volume burst into the reading room, smashed through the bulkhead and poured a great flood into the grand saloon and staterooms. The passengers were thrown into great commotion for a time, but none of them was hurt. The Captain and officers remained cool and self possessed throughout and acted with excellent judgment. One seaman was lost and several were injured. The steamship suffered such injuries, though the engines were not damaged, that it was considered unwise to proceed on the trip. She will go

Denounce the Loyalists.

back to Liverpool to make repairs.

DUBLIN, April 7 .- At a meeting of the National League to-day, Messrs. Healy and O'Brien, members of Parliament, and other prominent Nationalists, denounced the Loyalists' flunkyism, as shown by the extensive prepartions made in this and other cities and towns in Ireland to welcome the Prince and Princess of Wales. In speaking of the profuse decorations which adorn the principal streets in this city they suggested that the Dublin corporation should close the roads along the proposed royal route.

Credit Voted-An Armistice With China. Paris, April 7.—The Chamber of Deputies voted 150,000,000 francs asked for by M. Henri Brisson to carry out the government's

Chinese policy. It is reported here that an armistice has been signed between France and China, and that China has agreed to evacuate Tonquin within a month.

Put in a State of Defense.

Berlin, April 7 .- Cronsadt is being put into a complete state for defense by Russia.

Among other precautions, hundreds of torpedoes have been sunk outside the harbor. Left for Ireland,

LONDON, April 7 .- The Prince of Wales left here this evening for Ireland.
